Dear Sir:

Responsive to the Office Action mailed February 1, 2002, and the restriction requirement made therein, applicants provisionally elect, with traverse, the subject matter of Group I, claims 1-21, drawn to an apparatus, for continued examination herein.

Applicants traverse the restriction requirement on the grounds that 35 USC § 121 authorizes restriction only when the claimed invention is "independent and distinct" (emphasis added). A search of the subject matter of Group I, claims 1-21, drawn to an apparatus, would necessarily require a search of the subject matter of Group II, claims 22-23, drawn to a method. Thus the apparatus delineated in Group I is not directed to an independent and distinct matter.

BEST AVAILABLE COPY

Accordingly, applicants respectfully request that the Examiner reconsider and withdraw the requirement for restriction.

Respectfully submitted,

Robert Curcio
